# PROBLEMS OF PROGRAMMING

scientific journal

№ 4

October – December

2023

Founded in March, 1999

## CONTENT

### ***Expert and Intelligent Information Systems***

*Shynkarenko V.I., Makarov O.V.* Study of the efficiency of some deterministic preprocessing methods for sorting algorithms 3

### ***Models and Facilities for Data and Knowledge Bases***

*Proskudina G.Yu., Kudim K.O., Reznichenko V.A.* VuFind: an open solution for integrating library collections 15

*Zakharova O.V.* Scientific documents metadata as a component of the system of the “open science” information resources 27

*Rogushina J.V.* A three-dimensional model of semantic search: queries, resources, and results 39

### ***Methods and Means of Computer Modelling***

*Grygoryan R.D., Degoda A.G., Lyudovik T.V., Yurchak O.I.* Simulating of human physiological supersystems: modeling of kidney and bladder functions 56

### ***Agent-oriented Information Systems***

*Tarasich Yu. G., Soloshenko H. A.* Insertion semantics of quantum interactions 65

### ***Mashine learning Models and Methods***

*Omelianenko Ia. V.* Simulation of the autonomous maze navigation using the NEAT algorithm 76

*Doroshenko A.Yu., Kushnirenko R.V.* Recurrent neural networks for the problem of improving numerical meteorological forecasts 90

### ***Programming Tools and Environments***

*Vitiuk A.Y., Doroshenko A.Y.* Software package for adaptive training of robot controllers based on neural networks 98
